### Certain Heaters Harmful, Says DFG

The Department of Fish and Game has learned from the United States Public Health Service that a certain type of small bottle gas heater installed in 10 to 18 foot "travel" trailers can be deadly. Such trailers are much favored by hunters, anglers and other outdoor recreationists.

The Public Health Service says the heater is the "Thurm Heater" made by the Thurm Engineering Company of Elkhart, Indiana. It has been blamed for eight deaths so far in the Midwest.

The group will wrap Christmas presents for its adopted ward at Harbor General Hospital. Members will distribute the gifts and entertain patients with carols Dec. 19.
